## CONFIDENTIAL AND PRIVILEGED ATTORNEY/CLIENT INFORMATION

This facsimile transmission (and/or documents accompanying it) may contain attorney/client privileged communications and confidential business information that is intended for use only by the individual or company to whom it is addressed. Disclosure, interception, copying or any other use of this transmission by anyone other than any intended recipient is prohibited. If you receive this transmission by mistake, please notify the sender.

Please notify us immediately if you have not received the number of pages indicated above.

## Proposed Agenda for Examiner Interview

JUL 3 0 2009

Application No. 10/576,480

- Features of Claim 1
  - "an intake port opened to the hermetic container and leading to the muffling space" (See e.g. intake port 143 of FIG. 2)
  - "a gas catcher surrounding the intake port and opened facing an orifice of the suction pipe" (See e.g. gas catcher 144 of FIG. 2)
- II. Features of Harper (U.S. Pat. 5,496,156)
  - a suction muffler (See e.g. suction muffler 80 of FIG. 2)
  - a "funnel-like" inlet port included in the front wall of the muffler (See e.g. inlet port 102 of FIG. 2)
- III. Differences between claim 1 and Harper
  - Claim 1 includes an intake port AND a gas catcher.
  - Harper solely includes ONLY a funnel-shaped inlet port 102.
    - Inlet port 102 corresponds to the intake port of claim 1
  - Harper fails to disclose a gas catcher
